T.N.: (a) Inserted by the translator.

Comments: (1) This internal serial number is used for the second of two messages transmitted under external serial number 1691 of 1 Dec 1944; it was signed by NKX, and dealt with an entirely different subject (see 5/10/1993, Item 2). The message of which the present text gives the last part probably contains material derived from 1643 (Theodore Levin NKX). Extensive re-use of an internal serial number is not without precedent on this memo.

(ii) To judge by the names which follow, the problem of atomic energy.

(iii) HANFORD, Richard, President and Manager of AMERICAN, which produces and distributes American motion picture films in the Western Hemisphere. Collateral suggests that the "he" of this paragraph was STEIN (Haville NKX).

(iv) HENK: George HENKOV.

(v) HENKOV: Karl HENKOV.
